Chapter 1: Water and Moon The Sea was the last place I would have expected to find the land of Elden. I stood on its shores looking out on the vast expanse of water, wondering what kind of place this was. "Welcome to the Lands Between, my lord." A giant hand pushed me off the cliff, and the silhouette of a man appeared. The man was far too tall for my eyes to reach. "I thank you for your kind welcome." I replied, and the man laughed, his hair a mass of white around his face. "You're new here, right?" His voice was a cackle, as though he was delighted at my naivety. "It's a good thing that the information we've sent you about the place was brief." "Where is this place?" I asked, getting my head back on straight. "This is the Lands Between, of course. It's beyond the South Sea, the Eastern sea, and the northern sea." "That's a lot of seas." "The Lands Between is vast, but not immeasurable." The man moved a hand through the air, and a wall of water sprung up before us. "We live in places that can be reached by boat." "S-so, I don't have to go through the wilderness in the North?" "There are several alternative routes, my lord. To this country, this place."

I waited 3 weeks for this reply, and don't know how many questions has been asked. Since this game so popular on Playstation Network be sure that it is safe (only java version was tested) and you do not have to pay something extra in order to download it.

Elden Ring is game for which is strong opponent (Ostik Metal), I have engaged the battle and beat him with the use of 128 players (64 Players was not enough to break him). Now I`m preparing to play on PS4 and having very nice game experience. We should be careful when moving to next opponent, still assume that people will change their strategy :-)
